

andgut

Guthealth enhancer for pigs

Complementary feed to prepare animal's feed.

OBJETIVES:

andGUT is a natural prebiotic combination (soluble vegetal fibers) and organic acids that improves the gut's health and avoids diarrhoea. andGUT is specially recommended in stress situations (at weaning, start of fattening), and in lactating sows. andGUT avoids diarrhoea in piglets. When used in sows, during lactation time, it avoids its constipation and preweaning diarrhoea.

INGREDIENTS:

Soluble fiber source, organic acids, micotoxin adsorbents.

NUTRITIONAL VALUE:

Dry matter 94,5 % | G Protein 9,10 % | G Fat 0,80 %
G Fiber 16, 0 % | Calcium 0,90 % | Lysine 0,60 %
Met + Cys 0,27 % | Threonine 0,44 % | Tryptofane 0,10 %
Vitamin E 9 mg per kg. | Choline 705 mg. per kg. | Copper 13,2 mg. per kg.
Iron 510 mg. per kg.

HOW TO USE IT:

Consult the program with the and nutrition specialist team: DOSES:
When? Kg per ton

Piglets from weaning to 12 kg 40 50 kg.
Piglets from 12 to 25 kg 30 40 kg.
Pigs from 25 to 50 kg 25 35 kg.
Sows during lactation 30 kg. or 150 grams per day (topping)

PRESENTATION:

25 kg. Bags
